

VISHWA S.H

Data Analyst | Business Analyst | Python Developer | AI & Data Science Graduate

vishwakutty0305@gmail.com | +91 9444906210 | Chennai, Tamil Nadu | [LinkedIn](#) | [Portfolio](#)

PROFESSIONAL SUMMARY

Recent B.Tech graduate in Artificial Intelligence and Data Science with hands-on experience in SQL, Python, Excel, Power BI, and data analysis. Built academic and real-world projects involving data visualization, business reporting, automation, and machine learning. Strong problem-solving, analytical thinking, and communication skills with the ability to work collaboratively in fast-paced environments. Seeking entry-level opportunities in Data Analytics, Business Analysis, Python Development, or related technology

TECHNICAL SKILLS

Programming: Python, SQL

Database: MySQL

Data Analysis: Excel, Power Query, Pandas, NumPy

Visualization: Power BI, Matplotlib

Data Handling: Data Cleaning, ETL, Exploratory Data Analysis (EDA)

Business & Analytics: KPI Analysis, Dashboard Development, Reporting, Trend Analysis

PROJECTS

Power BI Dashboard — Bread Nutrition Analysis

- Engineered an interactive dashboard analyzing 50+ bread products using Power Query for automated ETL and DAX for dynamic KPI measures, cutting manual analysis time by ~60%.
- Delivered actionable insights across nutrition profiles, pricing tiers, and ingredient comparisons — enabling faster product benchmarking decisions.

Power BI Dashboard — Attendance Analysis

- Built an interactive attendance dashboard to track employee attendance trends and manager performance, improving reporting efficiency by ~50%.

Biomedical Equipment Service Management System – Saveetha Medical College Hospital | Excel VBA, Advanced Excel

- Developed an automated biomedical equipment service management system for Saveetha Medical College Hospital, integrating asset tracking, service reporting, and maintenance workflow automation.
- Implemented dynamic asset lookup, automated Job ID generation, engineer-wise job monitoring, and centralized job history management, improving record accuracy and reducing manual effort

EV Market Analysis

- Queried and analyzed 50K+ EV registration records using SQL (joins, aggregations, window functions) to identify adoption trends, top manufacturers, and geographic distribution.
- Built Power BI dashboards surfacing regional growth patterns, translating raw government data into executive-ready insights.

AI-Powered Convoy Route Optimization System

- Designed a predictive route optimization system using LightGBM for risk-aware path selection and FastAPI for real-time REST API endpoints, improving route efficiency by ~25%.
- Integrated MySQL for dynamic input handling, enabling scalable multi-convoy scenario computation.

EXPERIENCE

BESANT TECHNOLOGIES

Data Analytics Intern – Worked on data preprocessing, data cleaning, visualization, and reporting using real-world datasets. Analyzed data using Python, SQL, and Excel to identify patterns, trends, and actionable insights. Created interactive dashboards in Power BI to effectively present findings and support data-driven decision-making.

EDUCATION

B.Tech — Artificial Intelligence & Data Science · CGPA: 8.39 / 10

2022 – 2026

Dhaanish Ahmed College of Engineering, Chennai (Anna University affiliated)

CERTIFICATIONS

- Data Analytics Certification – Besant Technologies**
- Joy of Computing with Python** · NPTEL
- Data Science & Artificial Intelligence** · Mind Luster

AWARD

-  **Special Mention** · Anna University — Operation Trinetra 24-Hour Hackathon (Sep 2025)
